EDUCATION

MSc Computer Science (Data Analytics)
(currently pursuing)

BSc Electronics(Mahatma Gandhi University)
2018-2021

Hss(Higher Secondary Education Kerala)
2016-2018

SKILL

Excel

Java

Phyton

C Programming

C++

INTEREST

Gardening

Cooking

Painting

ABOUT ME

As a recent graduate specializing in analytics, I am thrilled to embark on a career where I can leverage my knowledge and skills to make data-driven decisions. Throughout my academic journey, I have developed a strong foundation in data analysis, statistical modelling, and data visualization. I am excited to apply these skills in a professional setting and contribute to solving real-world

PROJECT

Fire fighting robot

The Fire-Fighting Robot project aims to design and develop an autonomous robot capable of detecting and extinguishing fires in hazardous environments. By leveraging robotics and artificial intelligence technologies, the robot provides an innovative solution

Gym management system using java swing

The Gym Management System project aims to develop a comprehensive software solution that streamlines and automates various aspects of gym operations, including membership management, scheduling, attendance tracking, billing, and reporting.

Risk factor for cardio vascular heart diseases using orange

By leveraging machine learning algorithms and data visualization techniques, the project provides valuable insights into the factors that contribute to heart disease, enabling healthcare professionals and researchers to make informed decisions and develop preventive strategies
